## **NH DHHS COVID-19 Update – February 11, 2021**

**Concord, NH** – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Thursday, February 11, 2021, DHHS announced 394 new positive test results for COVID-19, for a current PCR test positivity rate of 2.5%. Today's results include 311 people who tested positive by PCR test and 83 who tested positive by antigen test. There are now 3,146 current COVID-19 cases diagnosed in New Hampshire. Of the results reported today:

- **2/9:** 11 new cases today, for an updated total of **375** cases
- **2/10:** **383** new cases

Test results for previous days are still being processed and the total number of new positives for those days are not yet complete. Updated case counts for prior days will be reflected on the [COVID-19 interactive dashboard](#).

Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are forty-eight individuals under the age of 18 and the rest are adults with 48% being female and 52% being male. The new cases reside in Strafford (83), Rockingham (81), Hillsborough County other than Manchester and Nashua (57), Merrimack (31), Cheshire (14), Grafton (12), Sullivan (11), Carroll (10), Belknap (8), and Coos (4) counties, and in the cities of Nashua (39) and Manchester (32). The county of residence is being determined for twelve new cases.

Community-based transmission continues to occur in the State and has been identified in all counties. Of those with complete risk information, most of the cases have either had close contact with a person with a confirmed COVID-19 diagnosis or have recently traveled.

DHHS has also announced one additional death related to COVID-19. We offer our sympathies to the family and friends.

- 1 male resident of Hillsborough County, 60 years of age and older

There are currently 138 individuals hospitalized with COVID-19. In New Hampshire since the start of the pandemic, there have been a total of 69,612 cases of COVID-19 diagnosed.
